

Engagement Programs for Customers, Partners, and Employees

Build + Connect + Strengthen + Encourage

It gets harder every day to **capture** the attention of customers, employees, or business partners. Just when you think you have a recipe for **success**, today's networked world throws you a curve ball.

How do you cut through the noise of “social this” and “online that”? A tried and **true** approach to capturing someone's attention is the use of compelling, engaging content. That is what NogginDigger is all about: engaging information in an edu-trivia format. We have designed hundreds of fun, engaging edu-trivia challenges and know how to make them captivating. You might like to use some of our existing material ...or... have us develop new content for your specific interests. Either way, the subject matter is up to you. We are experts at making it **interesting!**

Our edu-trivia programs :

- Strengthen Customer Relationships
- Train Employees More Effectively
- Build Teams and Communities Around Your Goals
- Sell More Products and Services.

Four week programs start at just \$5 per participant. Let us help you **engage** your audience today!
